Office Action Summary	Application No. 10/585,856	Applicant(s) HEIDA, BERND	
	Examiner Virginia Manoharan	Art Unit 1797	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

The specification has not been checked to the extent necessary to determine the presence of all possible minor errors, e.g., typographical, grammar, idiomatic, syntax and etc. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

- a). It is unclear whether the limitations recited prior the phrase "which comprises" in claim 10, line 6, is to be regarded as part of applicant's invention? Applicant should recites claim 10 in Jepson -format (if intended) to delineate that which is an improvement in the art.
- b). The claims or at least part of the claims are recited in passive rather than active steps. For examples only: "by extractive distillation" in claim 10, lines 1-2.
- c). There are insufficient antecedent bases for the following limitations:
 - 1). "the liquid which is drawn off from one or more separator stages" in claims 13-14; (not initially recited in the base claim); and
 - 2). "the region C" in claim 13.

Art Unit: 1797

d). It is unclear what constitutes the proportion of C4 acetylenes recited in claims 11 and 12, within the context of the claimed invention, as it is not specified in the claims.

e). The claimed "thermally coupled columns" in claim 15 is at odds with the "dividing wall column" in claim 10, the claim from which it depends. [A dependent claim incorporates every features of the claim from which it depends and cannot change nor orient the limitation already recited in the independent claim].

f). The inconsistent used of terminology is improper as it provides for ambiguity and confusion. For examples: "acetylenes outgasser" in claim 10, second line from the bottom, as opposed to "acetylene degasser" in claim 13, line 3, and in claim 16.

Claims 11-21 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

a). Bohner discloses a method for obtaining pure 1, 3 pure butadiene using a dividing wall column.

b). Tschopp discloses the removal of methyl acetylene from butadiene.

c). Stockburger et al discloses a method for separating a mixture of C4 hydrocarbon.

d). Lumgair, Jr. et al discloses a circulating partial vaporizer.
